EDUCATION

FAST - National University of Computer and Emerging Sciences

Bachelor of Science in Software Engineering

Aug. 2024 – Present

EXPERIENCE

Technical Member (AWS, Cloud)

Aug. 2025 – Present

AWS Club

- Delivered technical sessions on AWS Cloud fundamentals and DevOps concepts to university students.
- Strengthened practical knowledge of cloud computing while working with **AWS Services** and deployment concepts.

JavaScript Intern

Nov. 2025 – Dec. 2025

CodeAlpha

- Developed JavaScript-based web applications while gaining practical experience with modern web technologies.
- Worked with **Git** for version control and collaborative software development.

PROJECTS

[ProductSphere](#) | *ASP.NET Core, React, PostgreSQL, Entity Framework Core, JWT, AWS S3*

- Built a full-stack product management platform using **ASP.NET Core**, **React**, and **PostgreSQL**.
- Implemented **JWT authentication** with access and refresh tokens for secure session management.
- Added **refresh token rotation** and protected RESTful APIs for user and product management.
- Integrated **AWS S3** for secure product image storage and retrieval.

[Dropit](#) | *ASP.NET Core, React, PostgreSQL, Entity Framework Core, AWS S3, Axios*

- Built an anonymous **file, image, and link sharing platform** using **ASP.NET Core**, **React**, and **PostgreSQL**, with 6-digit codes for sharing and retrieving content.
- Used **AWS S3 pre-signed URLs** for direct file transfers, reducing **server load and backend bandwidth** by keeping file uploads outside the API server.
- Developed **RESTful APIs** with **Entity Framework Core** for file metadata, expiration, MIME types, and download tracking, with asynchronous operations for efficient request handling.

[cursorX](#) | *C++, STL, Google Test*

- Developed a multi-line text editor in **C++** supporting text insertion, deletion, cursor navigation, and document management.
- Implemented custom **doubly linked lists** for efficient multi-line text editing and a stack-based **undo mechanism** to support seamless editing operations.
- Added unit testing using **Google Test** to verify the correctness of core editing functionalities.

TECHNICAL SKILLS

Languages: C/C++, C#, Java, JavaScript, PHP, SQL, HTML/CSS, Assembly

Frameworks & Technologies: ASP.NET Core, Entity Framework Core, React, Bootstrap, RESTful APIs

Developer Tools: Git, GitHub, AWS S3, Visual Studio, VS Code, Linux, Postman

Databases: PostgreSQL, MySQL, MongoDB

CERTIFICATIONS

- [Feature Flagging with OpenFeature \(LFS140\)](#) — The Linux Foundation
- [JavaScript Programming Essentials](#) — IBM
- [Introduction to Git and GitHub](#) — Google
- [HTML and CSS in Depth](#) — Meta
- [Introduction to Front-End Development](#) — Meta
